

Remarks

Claims 1-23 were filed with the application. These were the original claims in the parent application, of which this is a divisional. The applicant now files substitute claims 24-34, and cancels claims 1-23 in a preliminary amendment so that more appropriate claims may be examined.

The examiner required a restriction of the original claims. It is submitted that the substitute claims all relate to the embodiment shown in Fig. 3 so that the claims 24-34 are not directed to patentably distinct species. The examiner also requested applicant to elect a “single ultimate species” in paragraph 2 of the Office Action. This requirement was due to “the numerous and diverse manners of securing” that the examiner asserts were claimed as being suitable in many of the original claims. The substituted claims do not recite manners of securing the device, so it is submitted that this requirement is now moot.

Based on the above, applicants submit that the application is now in condition for examination on the merits, and such examination is respectfully requested.

Enclosed herewith is a Revocation of Prior Power of Attorney, Appointment of New Power of Attorney, and Statement under 37 C.F.R. § 3.73(b) executed on behalf of the assignee of the entire right title and interest in the above-identified application.

A Credit Card Payment Form PTO-2038 authorizing payment in the amount of \$740.00, representing the fee for a small entity under 37 C.F.R. § 1.17((a)(4) for a four month extension of time is also enclosed. This fee is believed to be correct, however, the Commissioner is hereby authorized to charge any additional fees which may be required, or credit any overpayment to Deposit Account No. 14-0629.

Respectfully submitted,
